

Rent eBrains

Your trusted one-stop online resource for work you prefer to outsource

the Company Story

Rent eBrains

When Armina and Daniel Sîrbu co-founded Rent eBrains in 2007, she was fresh from a career track with European Fortune 500 companies and he from a high-tech engineering background. She loves devising high-quality professional solutions for businesses of all kinds and sizes and will move heaven and earth to achieve the desired client outcome. Daniel brings technical wizardry and deep enthusiasm for all things technical to their work.

From their offices in Switzerland and Romania, together with their talented, diverse core team of specialists, they nimbly provide a unique brand of caring, responsive and highly expert service that has earned them accolades from over 600 pampered customers worldwide.

They are always ready to “walk in their client’s shoes,” love a challenge and pride themselves on leading a team of 100 full-time and project-based go-getters and achievers: translators, engineers, copywriters and project managers.

Armina, Daniel and the team are at your service and would love to discuss with you solution synergies for your business.

YOUR TRUSTED ONE-STOP ONLINE RESOURCE FOR WORK YOU PREFER TO OUTSOURCE

Let's face it: We all have things we would rather not do ourselves, if only we could rely on someone to do them right. Then we could concentrate on what we do best, what we enjoy or what brings us the most profit.

Especially if you are an entrepreneur, these are often one and the same. It makes no difference if you are just getting started on an exciting new venture or run a growing, established business.

We learned this from dealing with more than 800 clients from around the globe since founding Rent eBrains in 2007. Practically from day one, we took all kinds of projects off hands that had better things to do. Such as creating new profit opportunities while we built the website, wrote the content, designed the print or online advertising or did market research.

We will continue to master and perform these sorts of tasks, ranging from mundane data entry to the most complex projects, so you can do what you do best. Just share your vision with us to have it translated into a customized solution that will have you say: "Couldn't have done it better myself."
